

Double Sided Ultima Non-Illuminated Poster Display

The 22mm deep, DS Ultima is a "tablet" format sign matching the aesthetics of the DS Strada lightbox. The magnetic covers ensure there are no unsightly mitred corners like those found on snap edge poster holders.

Designed for internal applications, the DS Ultima is a simple, elegant and easy to change poster display unit. The mounting frame is strong and adaptable to a variety of display applications. The DS Ultima can be suspended on cables or rods, used as a freestanding display or cantilevered from a wall.

Your choice of frame colour can be achieved with powder coated or spray painted finishes.

Simple image changing is achieved by removing the magnetically attached covers. The posters are held in place with magnetic clips.

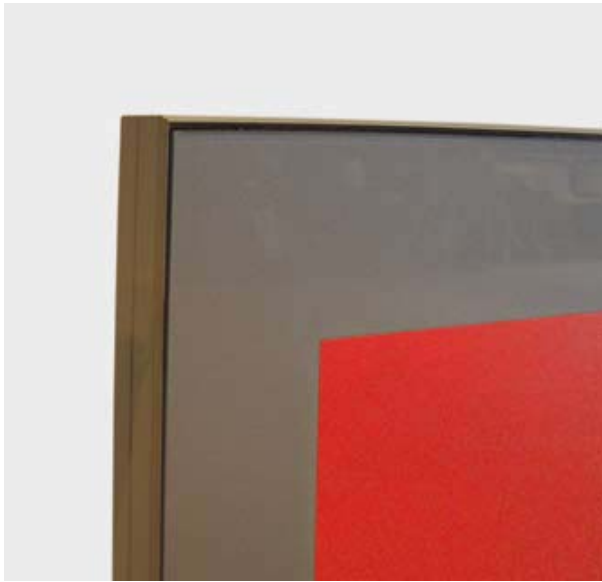

Quality manufacturing means the DS Ultima display will continue to perform for many years to come. The product is supported by a 12 months warranty on general construction.
