

Traveller Display

The 24mm deep, hinged, weather resistant Traveller Display is a “picture frame” format, hinged door sign that takes a 4mm glass or acrylic face.

Designed for internal and external applications, the Traveller can be wall or window mounted, attached to posts or incorporated into totem display units.

Simple image changing is achieved by opening a fully hinged door cover and locating the image in the magnetic clamps.

Your choice of frame colour can be achieved with powder coated or spray painted finishes.

Quality manufacturing means your Traveller display will continue to perform for many years to come. The product is supported by a 12 months warranty on general construction.
